16 FAM 341 WHILE ON ASSIGNMENT ABROAD

(CT:MED-1; 02-18-2005)

(Uniform State/BBG/USAID/Commerce/Foreign Service Corps—USDA)

(Applies to Civil Service and Foreign Service Employees)

- a. Immunizations that are recommended by the Office of Medical Services (M/MED) are provided and administered at U.S. Government facilities for eligible participants in the medical program.
- b. The administrative officer, with the approval of the regional medical officer (RMO) or head Foreign Service medical provider (FSMP) at post, may authorize payment to a private facility to administer required immunizations for eligible participants in the Medical and Health Program. In addition to recommended immunizations and other prophylactic measures, the Department of State Medical and Health Program may provide select medications (e.g., malarial prophylaxis, treatment for tuberculosis exposure). Travel costs to obtain immunizations and medications are **not** authorized.
